Overview
Rio Professional Nail Art Pens Neon Colours are one of the most noticed parts of our body. Whether you are talking with somebody or just doing some work, your nails will always catch the attention of people around you. Appearances matter a lot...at the very least it is very important to have healthy, clean nails. But nowadays you can do more: along with healthy, clean nails why not have nail designs which are uniquely yours?

Rio offers amazing products which give you the opportunity to design your nails as you wish, it's all about your creativity and inspiration. Rio Professional Nail Art Pens Neon Colours offers unlimited scope for stunning, innovative, customized nail designs.

With the unique double-ended applicators simply pull the top off to reveal the detailing pen or unscrew the top to reveal the fine line brush.

The Application
Before you go crazy on your nails it's a great idea to study the Design Chart for inspirational ideas and watch the DVD for great tips and techniques.

Top Tip: You might want to practice your designs on a sheet of paper before you try it out on your nails.

It's a good idea to work on a few sheets of newspaper just in case you make a mess. Make sure your nails are clean and dry before you start and it's a good idea to have some nail varnish remover to clean the brushes.

When you're ready to go apply your base colour, this can be one of the colours supplied or it can be ordinary nail polish. When your base colour is dry build up the design using the basic techniques of dots, teardrops, strokes and swirls (all of which are explained in the User Guide and the DVD).

When you are happy with your design let it dry, then work on your other nails. You can enhance your designs by adding the rhinestone gems and glitter. Now go crazy…!!!

Note: This product is not suitable for children under 12 years old.
